

**Amendments to the Specification:**

Please amend the Abstract on page 12, lines 2-11, as follows:

~~The invention relates to a~~ A shaped body, ~~in particular for such as those~~  
~~used in~~ a seat cushion, ~~having~~ has a lower, supporting gel layer (2) which forms a  
lower covering surface (1) ~~that,~~ consists of a polyurethane gel and, on its upper  
side, has integral supports (3) which are spaced apart from one another via  
expansion channels (4). A ~~and on which a~~ polyurethane foam layer (6) rests on  
the support gel layer (2) over the expansion channels (4). ~~The,~~ ~~the~~ upper side (5)  
of ~~which~~ the foam layer (6) is covered by an upper covering (7).
